

## GUIDELINES FOR FULL PAPERS

**How to submit:** We invite participants to present their Full Papers for the WCRC-6 Conference. Please follow these Full Papers Submission Guidelines. All accepted papers will be hosted in the Website of ICRA and ICAC that will be available at the Conference venue. Paper submission must be submitted electronically only through the dedicated Registration Form of the WCRC-6 website, with access through the your password. Papers submitted by other means (email, fax) will not be considered. A registered participant may submit up to 2 papers like in the abstracts. The full Papers may be submitted and up to the full papers submission deadline (April 30, 2016). The papers will not be edited nor corrected, and are of the submitting author's full. Please review carefully your paper before submitting to facilitate it.

**Deadline:** the deadline for Full Paper submission is April 25st, 2016. Past this date, abstracts will no longer be accepted.

**General Guidelines:** The Full Papers are to be submitted in English, using either the British or the US grammatical rules. Units should follow the International System of Units, or internationally-recognized commonly used units. Please avoid units used locally. Names of genus and species should be italicized.

**Items:** Title, Authors, Authors' Affiliations and Addresses, Key Words (maximum of 5), Abstract, Introduction, Material and Methods, Results and Discussion, Conclusions, References, Acknowledgments.

**Figures and Tables:** The figures or tables must be included inside the text after being quoted. The text may be typed directly in the appropriate boxes, or may be pasted from a MS Word (.doc or .docx) document. The use of other text editing programs may result in configuration problems. When pasting text into the appropriate boxes, please review carefully the text before submitting it, since configuration problems may occur, in particular when using symbols or special styles (italics, bold). The special character insertion tool of the form can be used to insert special characters, symbols, or font style.
